

Schedule 3

Notification of Water Use/Waste Deposit Without a Licence

Instructions

*“Every person who proposes to use water or deposit waste without a licence pursuant to subsection (1) in respect of an industrial, placer mining, or quartz mining undertaking shall submit to the Board a notice in writing, in the form set out Schedule 3 and containing the information indicated in it, **at least ten days before commencing operations.**”*

In addition to the information required by the Schedule 3 Notice, all proponents must provide at a minimum, one map, which will assist Water Inspections Officers in locating the operation and proposed water use. The map shall have a scale of 1:25000 and shall include the following:

- Longitude and Latitude/UTM Co-ordinates for the center of the location of the operation;
- NTS Map sheet number (for example Map Sheet Number 105D/14);
- A general description of the location of the operation (for example, “located 50 km South of Whitehorse” or “km 3 of Ten Mile Ranch road”);
- The area of the operation clearly delineated on the map; and
- A North arrow.

Any other maps provided with the Schedule 3 can be of varying scale and reference.

Please drop off the signed Schedule 3 Notification Form along with the required map and any other relevant maps or information to the Water Board Secretariat Office located at 419 Range Road or emailed to ywb@yukonwaterboard.ca or fax to 1-867-456-3890 for distribution.
