What is a Schedule 3 Notice?

A Schedule 3 Notice is a form completed by an individual or a business registered in Yukon to use water and/or deposit a waste without a water licence. A Schedule 3 Notice only applies to Industrial, Placer mining and Quartz mining undertakings.

It is not a permit or a licence.

There is no cost for submitting a Schedule 3 Notice.

The criteria for projects where a Schedule 3 Notice is applicable originate in Section 4, as well as Column 2 of Schedules 5, 6 and 7 of the Waters Regulation. See the reverse side for a detailed description of the Schedules.

If after reading this fact sheet you have additional questions, please contact the Water Board Secretariat at (867) 456-3980 to speak with a Licensing Officer.

For additional information in relation to Industrial activities, you can also contact Environmental Compliance & Inspections (Department of Environment) located in Whitehorse at (867) 667-5683.
