

CALCULATION OF WATER USE FEES FOR  
**INDUSTRIAL, MISCELLANEOUS OR  
QUARTZ MINING**  
UNDERTAKINGS

The following has been developed by the Water Board Secretariat as examples of fee calculations to assist you.

When you apply for a water use licence, you are required to pay your first year's water-use fee as part of your application.

1. If your usage is **less than or equal to 2,667 m<sup>3</sup>/day**, your **total water use fee is \$30**.
2. If your usage is **more than 2,667 m<sup>3</sup>/day but less than 4,000 m<sup>3</sup>/day**, you must calculate your water usage fee. The first 2,000 m<sup>3</sup>/day will be \$20. The remainder is calculated at \$1.50 for each 100 m<sup>3</sup>/day. For example, if you are proposing to use 3,633 m<sup>3</sup>/day of water, the fee is calculated as follows:

**Step One**

**(first 2,000 m<sup>3</sup>/day of water-use):** 2,000 m<sup>3</sup>/day = **\$20**

3,633 m<sup>3</sup>/day – 2,000 m<sup>3</sup>/day = 1,633 m<sup>3</sup>/day

**Step Two**

1,633 m<sup>3</sup>/day ÷ 100 = 16.33, multiplied by \$1.50 = **\$24.50**

**Step Three**

Add Steps One and Two:

\$20 + \$24.50 = **Total of \$44.50** owing for water-use fees.

3. If you are proposing to obtain **more than 4,000 m<sup>3</sup>/day**, you also must calculate your water usage fee. The first 4,000 m<sup>3</sup>/day will be \$50. The remainder is calculated at \$2.00 for every 100 m<sup>3</sup>/day. For example, if you proposed to obtain 172,800 m<sup>3</sup>/day of water, the water-use fee is calculated as follows:

### Step One

(first 4,000 m<sup>3</sup>/day of water-use): 4,000 m<sup>3</sup> = **\$50**

172,800 m<sup>3</sup>/day – 4,000 m<sup>3</sup>/day = 168,800 m<sup>3</sup>/day

### Step Two

168,800 m<sup>3</sup>/day ÷ 100 = 1,688, multiplied by \$2.00 = **\$3,376**

### Step Three

Add Steps One and Two:

\$50 + \$3,376 = **Total of \$3,426.00** owing for water-use fees.
