Re: Water License Eagle Plains

I understand that only one comment was received by the July 24<sup>th</sup> deadline.

I am sure the new Sewage Treatment System which we propose to install meets or exceeds all requirements.

We are ready to start construction immediately when we receive the go ahead from the decision body of the Board.

We are concerned about the time frame left in the construction season so trust the Board will meet shortly.

I await word from you.

Please keep us informed.

Yours truly,  
McNEVIN MANAGEMENT LTD.
