Dated this 14 day of

July, 2010.

Spaid.
Witness

Approved by:

Chairperson
YUKON WATER BOARD

PART A - DEFINITIONS

“Act” means *Waters Act* and any amendments thereto.

“Application” means Water Use Application MN10-038, including any additional submissions and/or revisions submitted to the Yukon Water Board by the Licensee, up to the date of the Board’s decision.

“Board” means the Yukon Water Board.

"Inspector" means any person designated as an Inspector under the Act.

"Natural Boundary" means the visible high water mark of any lake, river, stream or other body of water where the presence and action of water is so common and usual and so long continued as to mark upon the soil of the bed of the lake, river, stream or other body of water a character distinct from that of the banks thereof, both in respect to vegetation and in respect to the nature of the soil itself. In addition, the best estimates of the edge of dormant or old side channels and marsh areas are considered to be Natural Boundaries.

“Regulation” means the *Waters Regulation* made under the Act.

“Spill Contingency Plan” means the Spill prevention and emergency response plan that was submitted as part of the Application and included in Water Use Register MN10-038 in exhibit 1.2 and any subsequent revisions.

“Waste” means any substance as defined in the Act.

“Watercourse” means any stream, lake, pond, river, creek, spring, ravine or swamp whether ordinarily containing water or not.

“Wetted Perimeter” means the horizontal extent of the present water level while the work is taking place.

PART B - GENERAL CONDITIONSOther Laws

1. No condition of the water use licence limits applicability of any statutory authority.
2. All construction or installation of works authorized by this licence shall occur on property that the Licensee has the right to enter upon and use for that purpose.

Correspondence

3. Where any direction, notice, order or report under this licence is required to be in writing, it shall be given:
 - a) To the Licensee, if delivered, faxed or mailed by registered mail to the following address:

Peter Kiewit & Sons Co.
10651 Shellbridge Way
Richmond, BC
V6X 2W8

Fax: 604-278-5729

and shall be deemed to have been given to the Licensee on the day it was delivered or faxed or 7 days after the day it was mailed, as the case may be.

- b) To the Board, if delivered, faxed or mailed by registered mail to the following address:

Yukon Water Board
Suite 106, 419 Range Road
Whitehorse, YT Y1A 3V1
Fax: (867) 456-3890

and shall be deemed to have been given to the Board on the day it was delivered or faxed, or 7 days after the day it was mailed, as the case may be.

- c) The Board or the Licensee may, by notice in writing, change its address for delivery.

Non-Compliance

4. In the event that the Licensee fails to comply with any provision or condition of this licence, the Board may, subject to the Act, cancel the licence.

Spills and Unauthorized Discharges

5. The Licensee shall immediately contact the 24-hour Yukon Spill Report number, (867) 667-7244, and implement the Spill Contingency Plan should a spill or an unauthorized discharge occur. A detailed written report on any such event including, but not limited to, dates, quantities, parameters, causes and other relevant details and explanations, shall be submitted to the Board not later than 10 days after the occurrence.
6. All personnel shall be trained in procedures to be followed and the equipment to be used in the containment of a spill.
7. The Spill Contingency Plan shall be posted on site for the duration of the works.

Fuel Storage and Transfer

8. Fuel, lubricants, hydraulic fluids, coolants and similar substances shall be stored and/or transferred a minimum of 30 metres from the Natural Boundary of any Watercourse, in such a way that said substances are not deposited in or allowed to be deposited in waters.

Annual Reports

9. On or before the anniversary of the date of issuance of this licence, and for each year during which this licence is in effect, the Licensee shall submit an annual report to the Board. The report shall include the information required by the Regulation including, but not necessarily limited to:
 - a) any reclamation to the site; and
 - b) any inspection reports regarding the slope stability; and
 - c) a detailed record of any major maintenance work carried out or planned to be carried out that could have an impact on water.

Reports

10. All reports required to be submitted to the Board will be unbound and reproducible by standard photocopier, accompanied by one electronic copy on a CD/DVD.
11. The Licensee shall provide to the Board 5 additional copies of all reports. The additional copies may be either 5 bound paper copies or 5 electronic copies on individual CDs/DVDs.
12. Electronic copies shall be IBM compatible in one of the following formats: Word 97 - 2003, Excel 97 - 2003 workbooks, or Adobe .pdf format. Water quality results must be presented in Excel 97-2003 .xls format.

Term of Licence

13. The term of this licence is for the period from the effective date to June 1, 2015.

PART C - OPERATING CONDITIONSDescription of Waste Deposit

14. The Licensee is hereby authorized to construct, operate, maintain, and decommission a septic tank and absorption field as described in the Application, and subject to the conditions of this licence. Where there is a discrepancy between the Application and this licence, the conditions of this licence shall prevail.
15. Notification, including the name and phone number of the field supervisor, shall be provided to the Board, in writing, a minimum of 10 days prior to the start of construction.

PART D - DESIGN AND CONSTRUCTIONDesign

16. Ten days prior to the commencement of construction, the Licensee shall submit to the Board final detailed design construction drawings for the septic system. The final detailed design drawings must be consistent with the drawings which were submitted as part of the Application and sealed by a Professional Engineer licensed to practice in Yukon. All construction shall be carried out in accordance with the final design drawings.
17. Within 60 days of completion of the installation of the septic system, the Licensee shall submit to the Board, as-built design drawings of the system, sealed by a Professional Engineer licensed to practice in the Yukon.
18. Where site conditions require minor modifications to the designs submitted to the Board, the Licensee shall notify the Board, a minimum of 10 days in advance, of the details of the modifications or variations from final detailed design, specifications and quality assurance/quality control procedures previously submitted to the Board, provide a detailed construction schedule and the name and contact number(s) of the construction superintendent. The notice shall be in writing and must include an explanation of the reasons for the change and an assessment of the potential impact on the performance of the works. The notice shall be sealed by a Professional Engineer licensed to practice in Yukon.

Construction

19. All works associated with the undertaking shall be maintained in good repair.
20. Construction and/or maintenance equipment shall be mechanically sound and free of leaks.

21. The tracks and/or wheels of heavy equipment are prohibited from entering the Wetted Perimeter of any Watercourse.
22. Granular bedding and backfill material shall consist of non-frozen material.
23. Waste substances shall be used, transported, stored or disposed of in such a manner that they are not deposited, or allowed to be deposited, into any Watercourse or on any surrounding land, unless authorized by this licence.
24. No Waste shall enter any Watercourse as a result of any operation carried out by the Licensee.
25. All disturbed ground surfaces shall be stabilized in such a manner so as to prevent erosion and surface runoff from carrying sediment into any Watercourse.

PART E - SITE DECOMMISSIONING AND RESTORATION

26. All disturbed ground surfaces shall be regraded in a manner which is consistent with the topography of the site and which prevents erosion and surface runoff from carrying sediment into any Watercourse. Where soil conditions permit, disturbed areas shall be re-vegetated with appropriate reclamation seeds and/or plant species that are native in Yukon.
 27. All construction materials, equipment, temporary structures and debris shall be removed from the site upon completion of the work.
