Ralph Troberg's PM08 - 616 Bonanza Creek

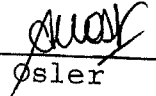

Dear Joelle,

Thank you for your letter of March 25, 2009. The Amendment to Water License PM00-173 has been submitted to basically increase the water consumption amount, change a License name from the claim owner to his registered company and add one claim. The applicant would like these items to take effect at the Water Boards earliest convenience. The solution to this request should be easy. Since a completed Water License application and Mining Land Use Operating Plan have been submitted to the Water Board, can we proceed as if it were a new application for a renewal of an existing license and invoice my client appropriately. The effective date of this new License should be ASAP which should allow mining this summer with the new changes. The new license would have an expiry date 10 years from the new effective date. The existing license would continue until the new license had been approved and issued by the Water Board at which time it would be replaced.

Please review this concept with the Board if need be and get back to me at your earliest convenience by e-mail or phone call.

NOTE: Please invoice Tim Osler Visa credit card for all disbursements associated with this Application with copies of the Visa invoices being sent to Rical Mining Ltd. by mail. When completing the Visa invoicing, please ensure that the Applicant's name of Early Day Adventures on Bonanza Creek @ Bolder Creek is mentioned for my bookkeeping.
