Dear Ladies and Gentlemen,

I'm sorry but i have to split the email because of the attachments size.

to refer on your response:

1. i have attached the missing documents to this email.
2. The payment will be send by check
3. I have made an mistake, the project does not require a site specific authorization from the Department of Fisheries and Oceans.
4. a signed authorization that ill be representing my partners is attached.
5. a sketch of the cross section of the valley is attached.
- 6 - 9. i have attached the needed documents.
10. It is not planned to mine on the survey parcels. The distance from the mining operation and the surveyed parcels boundary would be 30 meters. it is planed to stay on the opposite site of the street as where the surveyed parcels are.

thank you very much for your time and help with my Application.

Regards

Jan Labuscagne
