Re: Water Use Application and Class 4 Placer Mining Land Use Operating Plan Application PM09-663, Lombardi Pup, a tributary of Dominion Creek

Thank you for your recent submission of the YWB Project Confirmation Form received at the Water Board Secretariat Office on January 29, 2010. Upon review of the YESAA Online Registry it has come to our attention that the Decision Document, issued by the Yukon government, has not yet been completed. Once a recommendation is made by the Yukon Environmental and Socio-economic Assessment Board the Decision Body, the Yukon government, can reject, vary or accept the recommendation and issue a Final Decision Document. When you are notified that this document has been completed please re-submit the YWB Project Confirmation Form.

As a reminder to the previous letter sent to you on December 23, 2009, the following information and/or clarification is also required prior to the Water Board Secretariat processing your application:

1. On the Schedule 4 Application Form, it is required that you check off all the water uses that you are proposing. Please re-submit the Schedule 4 Application Form (copy included), with this information included.
2. On page 8 of 41 you have indicated the daily usage of water at 300 cubic metres. However, your Schedule 4 Application Form states that you require 600 cubic metres of water per day. Please clarify which is the correct amount of water required, and then update either the Schedule 4 Application Form or page 8 of 41 accordingly.
3. On page 14 of 41, you have indicated that you are going to have a seasonal diversion. If this is the case, the Water Board requires that you fill in the rest of the page with the requested information, and that you complete the Workbook Worksheets for Fish Habitat Design.

Sincerely,

Jason Colbert
Licensing Officer

C: Register PM09-639, Exhibit 4.2
