**RE: Water Use Application QZ04-065, Yukon Zinc Corporation
Wolverine Project**

Yukon Zinc Corporation has submitted an application for a Type A licence for quartz mining undertaking. The Yukon Water Board must provide an opportunity for a public hearing, and the date of the public hearing will be May 2, 2007. The hearing will be held in Whitehorse, but the specific location has not yet been determined.

Anyone wanting to make representations to the Board can intervene by filing a written submission at the Board office on or before twelve noon on April 4, 2007. The written submission must include a clear statement of your position, an indication of whether or not you intend to appear at the hearing, your name, address, telephone and, if possible, a fax number. If you intend to ask the Board to consider any written material, then you must provide a copy of

QZ04-065 Exhibit 4.1

that material. In addition, your intervention must include confirmation that you have provided a copy of all of the material to Yukon Zinc Corporation, who's address can be found on the attached distribution list.

In order to assist us in arranging the hearing room to accommodate everyone as comfortably as possible, we also ask that you tell us the names (or at least the number) of the people who will be in your party. If you will require any audio visual aids, we will need to know that in advance as well.

Although we cannot accept interventions in electronic form, we do ask that you provide us with an electronic copy, by email to ywb@yukonwaterboard.ca.

If, by twelve noon on April 4, 2007, the Board has not received any notice that anyone wants to participate in the public hearing, then the Board may decide to cancel the hearing.

The Board's Rules of Procedure for Public Hearings set out the procedure that will generally be followed for a public hearing. Copies of the rules are available from the water board office, or they can be viewed at our website <http://www.yukonwaterboard.ca>.

In summary, the procedure for the hearing will be that Yukon Zinc Corporation will be asked to summarize their application. Then each of the interveners will be given an opportunity to ask questions, after which the Board members and consultants may ask questions. Next, each intervener will, in turn be asked to present their interventions and respond to questions from all other parties. After that, Yukon Zinc may respond to the interventions. Finally, each party will be given an opportunity to make closing statements.

Please note, however, that the board may decide to vary the public hearing procedure in the interests of fairness and efficiency.

Enclosed with this letter is a copy of the current exhibit list and a copy of the public hearing notice.

All of the current exhibits, including the application and the Environmental Assessment Screening Report, are posted on the Yukon Water Board website. Copies are also available, in paper or electronic form, from the Yukon Water Board office. Please contact us at 867 456 3980, or by email ywb@yukonwaterboard.ca. Our website is <http://www.yukonwaterboard.ca>

As soon as possible after April 4, 2007, the water use register will be updated, a new exhibit list will be compiled and distributed to all parties. At that time, the distribution list will be revised to include only the applicant, the interveners, and people who have specifically asked that they remain on the list.

QZ04-065 Exhibit 4.1

If you do not want to be included in the distribution list for this application, or if there is a correction or addition that you would like to make to the list, please contact our office.

Please call me if you would like to discuss the public hearing process, or if I can provide any other assistance.
