Water Board

*Office des eaux
du Yukon*

August 2, 2007

To: Distribution List, as of July 24, 07

Re: Application QZ04-074, Elsa Reclamation and Development Co. Ltd.

Environment Canada has requested additional time to prepare their intervention regarding this application. Elsa Reclamation and Development Co. Ltd. have responded that they do not object to an additional two weeks, which is the period requested by Environment Canada.

The deadline for submission of interventions has been rescheduled to 4.30 pm on Monday, August 27, 2007. All parties are reminded that the Water Board cannot accept interventions by email, and that all interventions must clearly indicate that a copy has been sent to the applicant.

The exhibit list for this application has been distributed in previous correspondence. The applicant has advised that, with the exception of exhibit 1.4 (confirmation that the applicant is requesting a Type B licence), all of the information in the application was made available through the YESAA process. In any case, copies of any or all exhibits are available through our office.

For more information about the water board process, please contact our office or visit our website at <http://www.yukonwaterboard.ca>
